Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1732

1. Claims 18-34 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claims are rejected for the same reasons as set forth in the previous action. While applicant admittedly has support for the mixture of solvents to contain a non-solvent (page 5, lines 1-5), this would appear to be more an afterthought based on the disclosure of the admitted prior art (ie, page 2, lines 20-21 which in fact is the Duchane et al reference applied against the claims) rather than an alternate embodiment. It is noted that such a disclosure occurs nowhere else in the specification and was clearly never considered to be an alternative embodiment, since there are no examples directed to this aspect nor any other mention other than purely in passing. Hence, it is not clear to what extent the case law mentioned by applicant is probative. It is respectfully submitted that such a disclosure does not give applicant the right to positively exclude non-solvents from the claims.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 18-34 are rejected under 35 U.S.C. 103(a) as being unpatentable over the admitted prior art as set forth at page 1, line 7 through page 2, line 11 of the instant

specification in view of Duchane et al (col. 1, lines 40-50; col. 2, lines 45-55) for reasons of record.

3. Applicant's arguments filed April 3, 2006 have been fully considered but they are not persuasive. Applicant's comments concerning the new matter are not persuasive and have been essentially addressed in paragraph 1, supra. While there may be case law to allow alternative embodiments to be expressly excluded from the claims, it is respectfully submitted that the instant disclosure of using a non-solvent does not rise to the level of an alternative embodiment, at least one that would be excluded from the claims. Clearly, the disclosure as a whole contemplates using non-solvents as an afterthought and not as an alternative embodiment. If such were really an alternative embodiment, then certainly some example would have been disclosed using such an embodiment. The issue of obviousness has already been addressed. Concerning centrifugation, see the office action dated January 2, 2004, lines 13-17 of page 3.

4. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mathieu D. Vargot whose telephone number is 571 272-1211. The examiner can normally be reached on Mon-Fri from 9 to 6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Johnson, can be reached on 571 272-1176. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
